

IMPORTANT Notice to...

Those who manage Hogs, CATTLE, CHICKENS etc.

Working with these animals leaves odours in your clothes that are impossible to remove. Orange aPEEL Organic Concentrate can fix these problems. A couple of capfuls into the washing machine and the odours disappear.

Our Orange aPEEL Deskunking & Deodorizing Shampoo is ideal for removing the odour of Hogs, Cattle and other farm animals from your body and hair. Although the product was designed for use on animals, workers in these businesses have told us that it is the best thing to remove the odour on themselves.

Milk houses use our concentrate to clean the floors and walls thus providing a nice orange fragrance throughout. It removes the odour of sour milk.

We are pleased that we can now help to improve living conditions on the home front both with our Orange aPEEL Deodorizing and Deskunking Shampoo and our Orange aPEEL Organic Concentrate.

Make your own FLY SPRAY from Orange aPEEL

In one (1) Litre of water add 1/2 cup of Mineral Oil, 1/2 cup of white vinegar, 1 tablespoon of Orange aPEEL and allow a few minutes for it to work into the mixture. Always shake before using.

CAUTION: Keep away from direct contact with eyes and other sensitive areas.
